

FORBES AND STATISTA NAME TMAC DIRECT, A SERVICE OF THE MEDICAL AFFAIRS COMPANY (TMAC), A WINNER OF THE 2023 AMERICA'S BEST RECRUITING AND BEST TEMP STAFFING FIRM AWARD

Kennesaw, Georgia, May 3, 2023 – TMAC Direct, the direct hire service of The Medical Affairs Company (TMAC), a leading global provider of medical affairs solutions to the life sciences industry, has been awarded America's Best Recruiting and Best Temp Staffing Firm in the Executive Search category. This prestigious award recognizes the top-performing recruiting and staffing firms. TMAC Direct was named in the Executive Search category for organizations that place individuals in permanent positions with an annual gross income of more than USD 100,000. More than 36,400 external recruiters and 9,200 HR managers and candidates were invited to participate in the 2023 survey. The top lists for Executive Search, Professional Search, and Temporary Staffing are based on the number of recommendations and assessments in various evaluation dimensions.

Between December 14, 2021, and March 4, 2022, Statista, an independent market research institute and statistics platform, conducted broad surveys among external recruiters, HR-managers, and candidates who have had experience with a recruiting firm. The surveys were conducted online, and the participants had to qualify for the survey before they could name up to ten recruiting or staffing firms they know and had experience with for each category.

“This recognition is very validating because Forbes is such a respected source. In an era with many capable search firms, to be a Forbes top firm is quite an accomplishment. Our dedication to providing quality service, delivering top talent to our clients, and being trusted advisors to our candidates has certainly paid off.” stated Michael Pietrack, Head of TMAC Direct.

The award is the latest in a series of accolades for The Medical Affairs Company, which has been recognized for its expertise and leadership in its industry. In March, TMAC was awarded a Top Workplaces 2023 honor by Atlanta Journal-Constitution Top Workplaces for its exceptional company culture.

"We are honored to receive this recognition from Forbes," said David Hahn, Worldwide Head of The Medical Affairs Company. "Our team's dedication to delivering premier staffing solutions for our clients has clearly resonated in the market. We are committed to continuing to provide, both clients and candidates, exceptional service focusing on relationships, not transactions."

ABOUT TMAC DIRECT

TMAC Direct, a service of The Medical Affairs Company (TMAC), is a leading recruitment and staffing firm specializing in biopharmaceutical, medical device, and diagnostics industries. With a focus on delivering exceptional service and results for clients, TMAC Direct has become a trusted partner to organizations across the life sciences industry.
